

Dear Andrew:

You may NOT remember me, but I remember the wonderful assistance you provided me with, when I was trying to publish something in Wikibooks. It was entitled "How to Manufacture a Black & White Picture Tube", dated approx April 2008.

I have written several other scientific, never-seen-before breakthrough treatises, such as "Global Warming is Beneficial", (31 pages), the "Double-Quadruple Principle" (D Q P), [4 pages], etc. All were written in plain English, specifically written for the layman, without any technical gobbledygook used therein!!

Where scientific terms MUST be used, I believe I have provided an understandable translation of such terms!

My problems are as follows: These documents have never-before been seen NOR printed! I do NOT need anyone editing my words, because as I have said before, they are breakthroughs in the subjects, I have written about! In fact, with all due modesty, no one in the world, has the experience/expertise I do, in order to author the same!

Is there, in fact, any Wiki platforms, or any other service, which can be utilized/archived to retain this original material, long after I have passed away? I would love to be in the history or science books, but I wouldn't know how to accomplish this.... either!

If you search my name [Carmine cifaldi], in Google, you will find my Homepage listed therein. In fact, my Homepage can also be found in 24 other search engines!

I have paid 15 years in advance, to maintain my Website. But, in the 16th year, it will disappear from ALL 25 search engines. I am NOT

Einstein, Edison, Bell or any other famous name, but most of the subjects I have written about, are rooted in Television Tube manufacturing, which is now, a lost art. Therefore, no one could ever write, have an understanding, about those subjects, as I have written!

Some of the material, such as The (D Q P) is even now, applicable to several other disciplines, (such as perpetual electricity generation), by the use of stratospheric wind energy !

I can go into this with more specifics, if you have any interest in helping me to achieve my goals! Since I am financially well-off, I would be very happy, to pay for your assistance. I would be more than happy, to record the fact, in every document, that you have assisted me in each and every paper!

I would be more than happy to Email you copies, so that you may see for yourself, whether or not, these documents, (as I have said), are indeed worthy of retention for posterity!

Thanx very much, for your past help with Wikibooks! For your edification, somehow Google picked up that document also!

**I hope, all is well, in your personal endeavors! Hopefully, you may be desirous of earning some extra money and assisting me!
Best regards**
